

1. Create a new account in <https://github.com/>
2. Create a new repository as <yourusername>.github.io
3. Use any HTML editor to create [index.html](#) file as follows

```
index.html > ...
1  <html>
2    <body>
3      <h1>Subho's Portfolio</h1>
4      
5    </body>
6  </html>
```

4. Find a profile picture of you and rename it to [bioPic.jpeg](#)
5. View [index.html](#) in a browser and adjust the width and height accordingly
6. Upload [index.html](#) and [bioPic.jpeg](#) files to the same Github repository

7. Make sure both files are uploaded to the same folder

8. Open any browser and go to <https://<yourusername>.github.io/>
